

ES: Courses in Environmental Studies

Interdepartmental

ES 201 Environmental Practicum 1 Cr

A practical exploration of an environmental issue on the Carroll College campus, or encompassing the campus and the local community, through class analysis of the issue and concrete engagement with its resolution. The course may be taken for credit up to three times in different semesters, with an exploration of at least two different topics/projects.

ES 495 Environmental Studies Seminar 3 Cr

An analysis of selected environment-related writings and a discussion of selected environmental themes with presentations by students and faculty and invited lecturers as available. Required of all Environmental Studies majors and minors in their junior or senior year. Spring semester, odd-numbered years.

ES 496 Internship 3 Cr

A one-semester focus on an environmental issue explored through a working association with a federal or state agency, a private enterprise, a community group, or a non-profit organization.

ES 498 Environmental Studies Research Paper or Research Project 3 Cr

A senior year research paper or research project, in lieu of an honors thesis, focused on a specific environmental issue; the paper or project should provide evidence of scholarship in and integration of scientific, social scientific, and humanities analyses of or perspectives on the issue; presented to the department faculty and student peers.
