GK 301 and 302 Intermediate Greek

The introductory course (two semesters) in one other language

12 credits from the courses listed under "Other Program Requirements" for the Classical Studies major.

COMMUNICATION STUDIES

ALAN HANSEN, PH.D.
CHARLOTTE M. JONES, PH.D.
DOREEN KUTUFAM, PH.D.
BRENT NORTHUP, M.A.

Mission and Goals

The mission of the Communication Department mirrors the mission of the college: by seeking the "full realization of the dual goals of vocation and enlightenment."

The communication department has developed both educational/vocational goals and holistic goals for the enlightenment of our students.

The educational/vocational goals of the Communication Department:

- 1) to teach students to communicate effectively
- 2) to prepare students for a career in a business or another communication-related field

- 3) to prepare students for possible graduate study in communication or a related field
- 4) to prepare students for a possible career in public relations
- 5) to prepare students for a possible career in print or broadcast journalism
- 6) to prepare students for a possible career as a secondary education teacher of communication, speech or forensics
- 7) to train students to succeed in intercollegiate forensics competition

The holistic goals of the Communication Department:

- 1) to advise students comprehensively, including the development of a four-year plan leading to a major or minor and the development of a general career lifeplan
- 2) to illuminate students on the need to use communication constructively and unselfishly, to serve others and to promote peace on all levels - interpersonal, societal and global
- 3) to illuminate students on the moral foundations of communication, which include the need to treat every person with reverence
- 4) to illuminate students on the need for intercultural understanding in order to treat people of all backgrounds with tolerance and respect and
- 5) to teach practical communication skills - such as conflict management skills and relationship-building skills - which can enhance the personal life of students for a lifetime

Major in Communication Studies

I. Major Program Requirements

Thirty-six semester credits of communication courses, including:

CO 101 Basic Communication
CO 108 Desktop Publishing
CO 206 Small Group Communication
CO 225 Professional Communication
CO 280 Gender Communication
CO/ENWR 306 Writing for the Print Media
CO 308 Communication Ethics
CO 320 Organizational Communication
CO 340 Interpersonal Communication Theory

- CO 308 Communication Ethics
- CO 340 Interpersonal Communication Theory
- CO 414 Human Communication Theory

Note: All degree students should review requirements for graduation as described in this catalog.

COMMUNITY HEALTH

TODD DAMROW, PH.D., M.P.H.
LAURI FAHLBERG, ED.D.
KELLY PARSLEY, M.A.

Mission

The Community Health and Health Science (page 61) majors are designed for students seeking to enter the health professions. If the United States is to reverse the present trend of deteriorating health of its citizens, and do so within an affordable framework, the next generation of health professionals must be conversant with a new health promotion paradigm. The Community Health and Health Science majors introduce students to this new paradigm through an integrated biological, psychological, and sociological approach to promoting health that encourages a shift from reliance primarily on dollars and technology to informed citizen participation.

The Community Health major is designed for students interested in becoming health education specialists. Health education specialists primarily work for organizations in the community that focus on improving health. The Health Science major is designed for students seeking to pursue clinical fields such as physical therapy, physician's assistant, optometry, occupational therapy, and veterinary medicine.

Goals

1. To provide students with the specialized knowledge, skills, and global perspective they need to pursue their chosen health profession.

2. To provide students with practical experience that will supplement their academic work and facilitate their entry into a chosen health career.
3. To guide students in developing and articulating a personal and professional perspective that is relevant to improving the health of citizens locally, nationally, and globally.

Major in Community Health (CHS)

Common Program Requirements: (20 credits)

- HS 198 Exploration of Health/Wellness Issues
- HS 230 Introduction to Epidemiology
