

Together Rx Access[®] Helps Improve Prescription Access for the Uninsured

Millions of Americans take prescription medicines each day to stay healthy and to treat disease. Healthcare professionals play an important role in ensuring that patients are compliant in taking their medicines; however, many patients who lack prescription drug coverage may either skip doses or refrain from filling prescriptions in order to save on costs.

The Together Rx Access[®] Program is sponsored by leading pharmaceutical companies to help uninsured patients and their families gain access to immediate and meaningful savings on prescription products right at their neighborhood pharmacy. Medicines in the Program include those used to treat high cholesterol, diabetes, depression, asthma, and many other common conditions. Most cardholders save 25 to 40 percent* on brand-name prescription products. More than 300 brand-name prescription products are included in the Program.‡ Savings are also available on a wide range of generics.

Healthcare professionals can help patients enroll in the Program using a quick start savings card, which is a Together Rx Access Card attached to a brochure. Potential enrollees simply detach the Card, and call the toll-free number listed on the brochure to find out if they are eligible, enroll, and instantly activate their Card. The Together Rx Access Card is activated immediately if the eligible enrollee calls within call center business hours and within two business days at all other times.

To be eligible for the Together Rx Access Card, applicants cannot have public or private prescription drug coverage or be eligible for Medicare. Their household income must be no more than \$30,000 for a single person or \$60,000 for a family of four (income eligibility is adjusted for family size). And they must be legal residents of the United States or Puerto Rico.

To find out how to receive a supply of quick start savings cards for your office, contact Amy Niles, Chair, Medical Relations and Advocacy, Together Rx Access, at amyniles@aol.com. For more information about the Program, visit www.TogetherRxAccess.com.

* Each cardholder's savings depend on such factors as the particular drug purchased, amount purchased, and the pharmacy where purchased. Participating companies independently set the level of savings offered and the products included in the program. Those decisions are subject to change.
