- e. You may need to repeat steps 3-4 at this time if your installation does not begin automatically.
- 5. Click finder, open "applications," and click "Epson Network Projection":

6. Click "Easy MP Network Projection":

7. Select "Advanced Connection Mode" and check the box to "Set the selected connection mode as default..." and click "OK."

8. Click "manual search" and then enter the IP address of the projector you wish to connect to. To find the IP address of a projector, turn on the projector and set it to "LAN" input. Many Carroll classrooms have "wireless" or "LAN" buttons on the control panels for the projectors. In the sandbox, the "LAN" input is labelled "video" on the wall panel.
