## Scope, Content, and Arrangement

### Collection Summary

**Arrangement and Description:** Student files from Mount Saint Charles High School and College (pre-1932, when the name changed to Carroll College). These files are arranged alphabetically based on student's last name. Files include correspondence between college staff and students/parents, requests and copies of transcripts, military records, photographs, and newspaper clippings from notable events. These files are separate from students' permanent academic records. The contents differ dramatically from one student to the next. Many students wrote to the college after graduation requesting transcripts or other business.
