**Total Credits = 124**

▲ CORE – One course needed in each of the following areas: Fine Arts, History, Literature, Philosophy (in addition to PHIL 107 or PHIL 208), and Theology (in addition to TH 101). Of these courses, will need one course designated as Global Diversity and one course designated as Writing Intensive outside the nursing major. It is the student’s responsibility to make sure that 122 credits are completed in order to graduate.

★ Writing Intensive course for the major

◆ National Diversity course

▼ Nursing students are expected to purchase Carroll College nursing scrubs, nametag, hand-held mobile device, and other items needed for clinical/lab experience.

Revised 6/16
**Major in Nursing**

The nursing program at Carroll College offers a baccalaureate degree with a major in nursing, preparing students to practice as professional nurses or for graduate studies in nursing. Upon graduation, students are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN). Successful passage of the NCLEX-RN is required for practice as a registered nurse. The Montana Board of Nursing makes all final decisions on issuance of RN licenses in Montana. The baccalaureate degree in nursing at Carroll College is accredited by the Commission on Collegiate Nursing Education (http://www.aacn.nche.edu/ccne-accreditation). The program is also approved by the Montana State Board of Nursing.

**Baccalaureate Nursing**

A baccalaureate degree in nursing represents a comprehensive, holistic approach to the delivery of health care for individuals, families, and both local and global communities. Baccalaureate nurses utilize evidence-based practice models as they assess and plan care for the physical, emotional, social, and spiritual needs of their clients. Proficient in nursing skills, leadership skills and health systems assessment, the Carroll nursing graduate is well-prepared to function as a generalist practitioner.

**Admission to the Nursing Major**

**Direct Entry into the Nursing Major** (available for students admitted to Carroll in Fall of 2016 and after):

Students are accepted into the major with acceptance into the college. Nursing majors enroll in the pre-licensure BSN curriculum beginning the first college semester. Direct entry students must meet all the progression criteria to maintain their placement in the nursing major.

Students who wish to be considered for direct entry into the nursing major must meet the following criteria:

1. Minimum 3.30 GPA
2. Minimum composite ACT score of 24 or composite SAT score of 1190 (Reading & Writing, Math)
3. Completion of 1 year of chemistry by 6th semester or documentation indicating enrollment in course
4. Completion of 1 year of Biology by the 6th semester
5. Submission and completion of application (receipt of all supporting credentials) by **December 1st** listing Nursing as your first major of interest

**Please note: not all candidates meeting the minimum eligibility criteria will be selected for the Direct Entry option.**

**Pre-nursing Admission into the Nursing Major:**

Students admitted into the pre-nursing licensure curriculum will have the opportunity to apply to the nursing major during their first year at Carroll. Pre-nursing students must be formally accepted to the nursing major in order to register for nursing courses. Applications for Admission to the nursing major are accepted in the spring semester each year for admission into the major the following fall semester. All students who currently have listed Pre-Nursing as their major will receive notification regarding the admission process via Carroll College email. Final decisions regarding admission to the nursing major will be made after grades from the spring semester are available. Spring grades are posted by the Friday after graduation and students will have until the following Friday to notify the nursing department and/or Registrar of any grade changes. Please note that if there are more applications than spaces available, a Priority Ranking System will be used (see below for details).

Students seeking admission into the nursing major must meet the following criteria:

1. Be admitted to Carroll College as a degree-seeking student.
2. Complete or be enrolled in the following pre-requisites with a “C-” or better at the time of application: BI 201, BI 202, CH 111, CO 101, ENWR 102, PSY 105, PSY 203.
3. BI 201, BI 202, CH 111, CH 112, and BI 214 (or the equivalent of these courses) must have been completed within 5 years of admission to the nursing program at Carroll College. Any of these courses, taken prior to the five-year limit, may be analyzed by the nursing department for possible use depending on individual circumstances.
4. Have an overall college career Grade Point Average of 2.75 or higher on a 4-point scale. (This includes all attempted credits at an accredited college or university.)
5. Repeat or withdraw from no more than two (2) courses considered pre-requisite to nursing or nursing courses taken either at Carroll or other institutions.
6. Complete all required course work, to include independent study or “incompletes”, by established deadlines.

Revised 9/16
7. Complete criminal background check as instructed by the Department of Nursing, to be paid by the student. Students with background checks that reveal a record will be evaluated individually to determine whether they will be admitted to the nursing major. Alcohol and drug violations may interfere with Montana Board of Nursing approval to sit for the NCLEX-RN exam.

8. Provide documentation of freedom from communicable tuberculosis and immunity to hepatitis B, and measles, mumps, and rubella (MMR).

9. Students with an academic integrity violation on file at Carroll College will be evaluated individually to determine whether they will be admitted to the nursing major.

Please note: meeting the minimum requirements does not guarantee admission to the nursing program.

The Carroll College Department of Nursing has a primary responsibility to the education of future professional nurses – a responsibility seriously recognized by the Admissions Committee, charged with selection of those candidates who best demonstrate the academic achievement, emotional maturity, integrity, and motivation necessary for consideration for admission.

The Department of Nursing reserves the right to accept for admission into the major the number of students for whom a quality educational program can be provided and in order to fulfill the accreditation guidelines mandated by the Commission on Collegiate Nursing Education. If there are more applications than spaces available, the Department will use a Priority Ranking System based on the following criteria to select students for admission. Criteria will be applied after spring grades become available.

1. Successful completion of items 1-9 above.
2. Overall college career Grade Point Average (this includes all attempted credits at an accredited college or university).
3. Selected GPA from the following Carroll courses: BI 201, BI 202, CH 111, CO 101, ENWR 102, PSY 105, PSY 203. A course from another institution must be accepted at Carroll as an equivalent course to be calculated in this selected GPA.
4. Completion of CORE or nursing prerequisites without need for repeating courses (no D’s or F’s) or withdrawals.
5. Current enrollment and the number of credits completed at Carroll College. Students who have completed 24 or more Carroll credits by the end of the spring semester will be ranked higher on this criteria than students who have completed at least 12 Carroll credits.
6. No academic integrity violation on file in the Registrar’s Office at Carroll College.
7. A standardized exam to measure aptitude for nursing success, to be paid by the student, may also be required.
8. Interviews by the Department of Nursing faculty may be required.

Progression in the Nursing Major
To progress in the nursing major, the student must:

1. Have a grade of “C-” or better in all nursing classes and the following co-requisites: BI 214, CH 112, MA 207, PHIL 107 or PHIL 208, SO 101. All nursing courses must be taken at Carroll College unless the nursing department grants an exception.
2. Maintain a minimum CUM Carroll GPA of 2.75 at the end of each semester after admission into the nursing major.
3. Pass/Fail grades may be acceptable for courses not co-requisite to nursing courses as long as the student is within the parameters of the guidelines of the Academic Policies as stated in the Carroll College Catalog currently in effect.
4. In the event of a college academic integrity violation, the student’s ability to progress in the nursing major will be determined on an individual basis.
5. Students who receive any legal action that would appear on a criminal background check, such as a misdemeanor or felony charge or conviction, must immediately inform the chair of the Nursing Department, and will be evaluated individually to determine whether they will be allowed to progress in the nursing major.
6. Students must demonstrate the academic achievement, emotional maturity, integrity, and motivation necessary for progression in the nursing major.

If the student does not meet the above criteria, he or she is not eligible to continue in the nursing major.

Policy related to Student Withdrawal and Re-application to the Nursing Major is found in the Department of Nursing Student Handbook.

Revised 9/16
Access to Clinical Experiences
Clinical experience begins in the 200-level nursing courses and occurs in diverse community settings, varying from Helena’s hospitals to public health, assisted-living, long-term care, home-visits, and psychiatric and school settings. In addition, on-campus clinical experiences are provided in the on-campus nursing clinical simulation center. Each nursing course at Carroll provides quality, personalized learning experiences.

Nursing students are expected to purchase Carroll College nursing scrubs, nametag, hand-held mobile device, and other items needed for clinical/lab experience. As part of the application process and prior to beginning 200-level courses, nursing students must show proof of freedom from communicable tuberculosis and immunity to hepatitis B, varicella, and measles, mumps, and rubella (MMR). Students are required to have current American Heart Association Basic Life Support for Healthcare Providers certification prior to beginning clinical and must update this CPR certification as required. Students must update their TB test annually and obtain an annual flu vaccination as required.

Professional nursing is regulated in Montana by the Board of Nursing to protect the health, safety, and welfare of the public. As part of their educational program, student nurses are entrusted with the responsibility of providing certain kinds of nursing care to clients/patients. It is the responsibility of the faculty to determine that the student nurse has demonstrated reasonable competence to render nursing interventions without risk to the client/patient. If the faculty member’s evaluation of the student nurse’s behavior or health status indicated that he or she is likely to provide unsafe nursing care as outlined in the course expectations, the Statutes and Rules of Nursing, and the ANA Code of Ethics, the faculty has the legal responsibility to deny the student nurse access to clinical learning experience. Professional liability insurance coverage is required for students engaged in clinical experiences and is included in registration fees.

The Carroll College Department of Nursing reserves the right to make changes in these admission and progression criteria.
